The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 4 and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Potter et al in view of Band.

The above references are applied for the same combined reasons as set forth at page 4 of the previous Office action.

Claims 1-2, 5, 9-10, and 12-14 are allowable over the prior art of record.

Applicant's arguments filed March 28, 2003 have been fully considered but they are not persuasive. However, the concept of converting a metal oxide to a metal base in the presence of a halogenating agent, as broadly claimed in claim 4, is known as taught by Band. Note e.g. col. 4, lines 7-10. Potter teaches the distillation of the specific titanium alkoxide and titanium halide as claimed. Thus, an artisan wanting to particularly transform the specific titanium alkoxide to a titanium halide would employ the known halogenating agent, taught by Band to Potter's process, motivated by a reasonable expectation of success, i.e., aiding such transformation. Section 103 requires us to presume full knowledge by the inventor of the prior art in the field of his endeavor. In re Winslow, 151 USPQ 48. Further, a reference is not limited to what is specifically disclosed, but maybe considered for what it would have reasonably suggested or inferred to an artisan. See re Preda 159 USPQ 342.

Art Unit: 1764

Thus, in the absence of anything, which may be "new" or unexpected result, a prima facie case of obviousness has been reasonably established by the art and has not been rebutted.

Unexpected results must be established by factual evidence. Mere arguments or conclusory statements in the specification, applicants' amendments, or the Brief do not suffice. In re Linder, 457 F.2d 506, 508, 173 USPQ 356, 358 (CCPA 1972). In re Wood, 582, F. 2d 638, 642, 199 USPQ 137, 140 (CCPA 1978).

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
